PROFILE

360 Degree Solution Provider
for your **Construction needs**

Introduction

SCS Infrastructures Private Limited an ISO Certified Company is one of the premiere infrastructure company, engaged in the construction of Commercial Buildings, Earth works, Driveways, Enclosure walls, Retail Outlets and POL & LPG Terminals for Oil Industry, Factory Buildings, Structural Steel Works, Storm Water Drains, Over Head Tanks, Under Ground Sumps, G. L. Reservoir, Civil and Electrical works, power transmission lines etc., our company has a track record of successfully executing several construction projects on time. We are registered Special Class contractors with State Governments and empanelled with several public sector organisations.

It was less than a decade ago, that this organization began its foray into this business of construction. And now within this short period of time, it is known as a company of reputation, built upon the solid building blocks of transparency and progressiveness.

One of the biggest reasons for our success has been our unique flexible way of functioning which allows us to adapt to the exact nature of any project in a relatively shorter span of time. This flexibility has given us the ability to develop a deeper insight into handling construction projects of various kinds and sizes located at different places throughout the Indian landscape.

The growing lists of finished projects in SCS Infrastructures Pvt. Ltd., portfolio bear ample proof of the fine workmanship standards. The company practices to deliver world class construction services to its clients.

Vision

The Company had committed to maintain the status of leadership in the industry to achieve excellence.

Mission

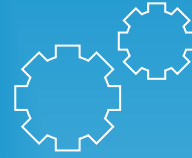

- Work as per the highest work ethics
- Adopt latest and Eco-friendly technologies
- Think globally and act locally

Growth Strategy

We have developed a sustainable growth strategy that comprises of the following principle elements:

- Diversifying and expanding into new functional areas and geographic areas.
- Maintaining performance and competitiveness of existing business.
- Developing and maintaining strong relationships with clients and partners.

Employing experienced and qualified personnel Upgrading technologies on continuous basis.

Philosophy

In this age of technological revolution, one has to think globally and act locally. We aim to achieve excellence in all the areas of its activity.

Achievements

Our Services

Just think about anything, Retail Outlets and Terminals for Oil Industry, Factory Buildings, Roads, Bridges/Flyovers, Townships/Housing, Commercial Complexes, Structural Steel Works, Renovation & Upgradation of Buildings, School building, Shopping mall, Factory and all the structures that you may want to think of erecting. We can easily carry out your desired construction in the most cost efficient and professional manner with our world-class Construction Management Services. Armed with a strong team of highly skilled professionals, we get down to supervise the assigned project in a very methodical manner.

We check for all possible roadblocks in advance, and act accordingly to ensure that there are no unnecessary delays in the execution of a project at any point of time during its execution. We also keep a constant eye on the procurement essential for smooth functioning of daily schedule, and also monitor cost spending on a real time basis.

We have Construction managers enrolled in our ranks who are assigned to handle these projects right from the scratch (concept development stage) till the time of completion of the project. Hiring of contractors, drafting of schedules, making cost estimations and obtaining of necessary permits and licenses are also a part of our Construction Management Services package that we proudly offer to our clients.
